Disclosures

The Overview is presented in the primary currency of the account. For multi-currency transactions, the amounts are converted using the live interbank exchange rates at the time of the transaction.

The Cash breakdown displays the value of each currency wallet in its respective currency and also in the primary currency of your account. The value shown in the primary account currency is converted using the live exchange rate from the last day of the month for which this statement is generated.

All transactions' execution times are in UTC. All open positions are valued at the bid/offer price at 21:00 (UTC) for valuation purposes. Margin calls are subject to change, and the amount due for immediate payment may vary. CFD Overnight interest is applied to positions held open between 20 August 2025 at 21:00 (UTC) and 20 September 2026 at 20:59 (UTC). See our [Terms and fees](#) for more information.

Invest transactions executed on an exchange follow the standard equity settlement cycle of trade date plus two days (T+2), although this period may occasionally be extended due to operational reasons. In contrast, transactions involving crypto-assets are settled instantly at the time of execution. This settlement period may be extended beyond this standard cycle due to operational factors in certain rare circumstances. As outlined in our [Terms](#), in the unlikely scenario that a transaction fails to settle, it will be cancelled, and your account will revert to its state before the transaction took place. Your statement, received at the time of a transaction, will state if the specific transaction was executed on an exchange.

Where a portfolio transfer was executed in your Invest Account, the execution price for Transfer in would be the price at which an investment was bought, as provided by the client during the transfer. Its accuracy is the sole responsibility of the client. For Transfer out, the execution price would be the price at which the investment was bought.

The statement includes pending orders as of the time it is generated; any orders placed or cancelled afterwards are not shown. Clients are encouraged to regularly check their account activity on the online platform to stay informed of any changes.

Your money and assets are held and protected under the "Safeguarding of financial instruments and funds belonging to clients" Directive DI87-01 issued by CySEC as per [Protection of your assets section](#).
